Academic Details

Year	Degree/Exam	Institute	$\mathrm{GPA}/\mathrm{Marks}(\%)$
Aug, 2021 - Present	B.TECH in Computer Science	Graphic Era University Dehradun	7.5/10
2021	$12^{th}, C.B.S.E$	Jawahar Navodaya Vidyalaya school	87 %
2019	$10^{th}, C.B.S.E$	Jawahar Navodaya Vidyalaya school	93~%

Internship

Full Stack Web Development Intern

July 2024 - Oct 2024

Technology Business Incubator (TBI), Graphic Era University, Dehradun, India

- Developed responsive web applications with a focus on user-centered design, enhancing interactivity and efficiency.
- Built reusable front-end components in React.js, boosting the modularity and responsiveness of applications.
- Implemented RESTful APIs with Node.js and Express.js to streamline server-client communication for seamless data flow.
- Contributed to IMExchange, a startup revolutionizing commercial shipping with AI-driven solutions, by enhancing platform tools for improved efficiency and innovation.
- Collaborated effectively within an agile team, gaining experience in version control, and sprint-based project management.

Projects

AI Notion Clone

January 2025 - Present

- Tech Stack: Next.js, Tailwind CSS, Cloudflare Workers, Liveblocks, Clerk, Firebase Firestore, OpenAI
- Built an application which enables real-time collaboration with live cursors and rich text editing, allowing multiple users to edit documents simultaneously without conflicts.
- It integrates AI for chat-to-document generation, and document summaries, with secure user authentication and real-time document storage.
- Features a sleek and responsive interface designed with Shaden and Tailwind CSS, offering toast notifications, dialog prompts, and an intuitive user experience.
- Uses serverless technologies like Cloudflare Workers to ensure low-latency and scalable backend operations.

Personal Finance Tracker (

Mar 2024 - Apr 2024

- Tech Stack: React.js, JavaScript, HTML5/CSS3, Node.js, Express.js, MongoDB
- A web application built to help users manage income, expenses, and savings, providing insights into spending habits and financial goals.
- Users can add, edit, and categorize transactions, visualize data through charts, and filter or sort by date and category for better financial tracking.
- Offers a seamless, user-friendly solution for tracking finances and making informed budgeting decisions.

Technical Skills

- Languages: C, C++, Java
- Web Development: React.js, Next.js, Node.js, Express.js, TypeScript, JavaScript(ES6+), WebSockets
- Databases: MongoDB, MySQL, Firebase Firestore
- Tools/Platforms: Git, GitHub, Cloudflare, Clerk, Liveblocks

Positions of Responsibility

- Assisted in the organization and management of the national-level hackathon "GRAPH-e-THON" in collaboration with Graphic Era University.
- Captain (Regional Team), U-19 National Football Championship, August 2019, Kokrajhar, Assam.
